Psychologist's positionings, theories, methods and
tools in productive organizations

Dr. Lorenzo Caprini

Freelance HR Consultant, Milan

November 12th, 2021

9.00 am – 1.00 pm

Classroom 17, via Pignolo 123

To participate online click [here](#)

In the seminar will be addressed the role of clinical psychology in organizations, focusing both on theoretical and methodological aspects. A special attention will be given to the tools that a psychologist can use when working with a company, in order to understand the constraints and possibilities of the context and the intervention. A practical approach to facilitate the learning process will be adopted.

Attendance will be certificated as part of the traineeship activities.
